

# **PPC Santana Integrated Policy**

**PPC Santana** operates in the electrical segment through the Development, Manufacture, and Commercialization of Electrical Insulators for low, medium, high, and extra-high voltage. The company has the management of its Quality, Environment, Human Resources, and Conduct systems in an integrated manner and is committed to satisfying the applicable regulatory requirements and complying with legal requirements, acting in the search for continuous improvement.

## **Quality**

Provide solutions in electrical protection and derivatives, focusing on customer satisfaction, guided by promptness in service, on-time delivery, and specified quality.

## **Environment**

Protecting the Environment through the rational use of natural resources, preventing forms of pollution, and helping to develop a Sustainable Consciousness among employees.

## **Human Resources**

Promote training people for work, preserve Health and Safety in the company's control environment, and assist in the development of Citizenship and Social Awareness of its employees.

## **Conduct**

Always act ethically, complying with the guidelines and rules established in the company's Compliance guide, in the instructions related to Occupational Health and Safety, and in meeting the requirements of the Management Systems (Environmental and Quality).
